# OFFICE 365 FOR EDUCATION

Did you know that Office 365 is available for schools?

If you are an accredited academic institution, Office 365 is a “*must have*” collection of services that allows teachers and students to communicate, collaborate and share in one common platform.

The A1 Office 365 license is available for free to teachers and students in an academic institution. It includes Office Online (Word, PowerPoint, Excel, and OneNote), 1 TB of personal cloud storage, Yammer, and SharePoint sites. Teachers and students can install the full Office applications on up to 5 PCs or Macs for free with this A1 license.

## FREE VS. CORE / PREMIUM LICENSE

Why should schools consider paying for a core (A3) or premium (A5) Office 365 license? A paid license allows you to enjoy greater access to more apps in the Office 365 family. In addition it provides additional security for schools and their data. For example, an A3 Office 365 paid license allows you to access risk and manage threats but an A5 license gives you greater protection against malware and phishing threats. In addition, schools can tap on either the A3 or A5 license to make full use of the data analytics. Depending on which license you choose, the analytics are available at the personal or organisational level. At A5 level, schools enjoy greater transparency and control in managing their Office 365 environment.

# A1, A3 AND A5 LICENCE COMPARISON

Microsoft 365 Component Map		Services & Features	A1	A3	A5
Office	Collaboration & Learning	Exchange Online (email and calendar), Teams/skype, Yammer (social)	✓	✓	✓
